Home FAQs Gas safety Save money Gas boilers Renewable energy Energy grants About us/contact us Useful information

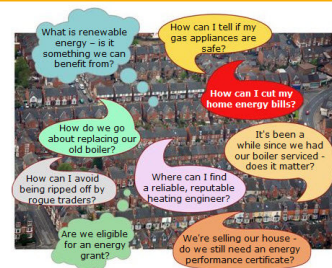

At home few things are as important as the safe operation and efficiency of your heating system. And with energy prices remaining at high levels – taking a much larger share of household expenditure – homeowners are looking at ways to cut their energy bills. That's just one important area where the Heating Helpline can assist.

And the Heating Helpline is not just a website – we have a team of experts that can answer your questions and give you advice – simply call us (free) on 0800 840 4069.

On the right are some of the common questions we are asked – mouse over and click on any of these for the answers and a lot more related information.

The Heating Helpline is a completely free service backed by the Heating and Ventilating Contractors Association (HVCA) – the leading trade association in the UK for domestic heating engineers.

HEATING HELPLINE WEBSITE GETS MAKEOVER

The Heating Helpline website has had a major overhaul making it much easier to use and with even more expert, impartial information and advice on all aspects of energy efficient home heating.

26 October 2010 – The Heating Helpline website

(www.heatinghelpline.org.uk) has had a major overhaul giving it a stylish new look but more importantly making it much easier to use with additional content on all aspects of energy efficient home heating.

Homeowners and tenants will find a wealth of information on subjects like gas safety, how to save on energy bills, gas boilers, what energy grants are available, understanding renewable energy technology and how to steer clear of rogue installers. The website also features an easy-to-use search facility so homeowners can find a reputable, reliable heating

Notes to Editors

HVCA operates the *Heating Helpline* (www.heatinghelpline.org.uk) to provide consumers with free, impartial advice on every aspect of home heating.

Established in 1904, the HVCA is the premier organisation representing central heating contractors across the UK, and exists to promote fair dealing and the sound installation of heating systems.

HVCA members all undergo third-party inspection and assessment of their technical competence and commercial capability every three years. This process is carried out by an independent certification body with an established industry reputation.

HVCA members who undertake gas installations are registered with Gas Safe – the gas safety watchdog body – and are also members of TrustMark, the Government-endorsed scheme designed to direct customers towards reliable tradespeople.
